Running (training for Vancouver Sunrun 10K), hiking, playing in a casual band (Violin since 3), writing fiction

👤 PROFILE

Exuberant Third Year Engineering Student and recent Full Stack Developer having graduated with a certificate of full stack development with JavaScript from the University of Washington. Worked as a construction worker, among other odd jobs.

📁 EMPLOYMENT HISTORY

Construction Worker at Jacob Larson, LOPEZ ISLAND

June 2019 — August 2019

Worked as an entry-level construction worker for Jacob Larson Construction in my hometown before college. Handled dangerous equipment in the deconstruction and initial reconstruction of the property including working with the customers, roof deconstruction, cement pouring, siding construction, etc.

🎓 EDUCATION

Sustainable Energy Engineering, Simon Fraser University, Burnaby

September 2019 — Present

Still working towards my degree. Enjoying every second. Favorite class: material design.

Full Stack Development with Javascript, University of Washington , Online

May 2022 — November 2022

Graduated from a full stack certification program via the University of Washington while continuing to take college courses.

🐦 EXTRA-CURRICULAR ACTIVITIES

SFU 350, Burnaby

September 2022 — Present

Joined the club during the club's successful campaign to urge Simon Fraser University to commit to divestment from fossil fuels by 2025. Helped rally student engagement by communicating and getting more than 500 students to sign a petition asking SFU to affirm our request. Spoke at the climate justice protest in Vancouver in 2022 to help get our message out.

SFU Building Design Team , Burnaby

October 2021 — April 2022

Worked as a part of the Water Management Sub-team. Helped design the water catchment system and plumbing system of the architectural design.

★ HARD SKILLS

Javascript, HTML, CSS, React, Node.js, mySql , Express, MongoDB, Mern Stack

SolidWorks, Autodesk, GraphQL, Material ui, Bootstrap, Python
